

Wisam Ahmed

Karachi, Pakistan / Remote | 0327-295-4532 | wisamahmed851@hamil.com

Professional Summary

Results-driven Backend Engineer with 1+ year of experience developing scalable, secure web applications using Nest.js, Laravel, and MySQL. Adept at RESTful API design, real-time communication, and frontend integration. Currently delivering production-grade backend solutions at Bidec Solutions. Passionate about clean architecture, collaboration, and continuous learning in .NET Core and modern full-stack technologies.

Key Projects

Ma3rood - Multi-Category Marketplace (Laravel)

Karachi, Pakistan / Remote

- Developed a large-scale platform for e-commerce, property, and motors listings using Laravel and MySQL, improving performance and API efficiency.

Ride n Share - Real-Time Ride App (Nest.js + WebSockets)

Karachi, Pakistan / Remote

- Built backend architecture enabling instant ride requests, driver tracking, and notifications via WebSockets for live updates.

GetX Services - Service Platform (NestJS + Flutter GetX)

Karachi, Pakistan / Remote

- Created APIs for a Flutter app connecting clients and service providers, integrating authentication and modular service handling.

Pob Website - CMS Platform (Laravel)

Karachi, Pakistan / Remote

- Designed a dynamic CMS for a trust website, enabling seamless content, media, and team management through an admin dashboard.

Shradha Book Store - Beginner Project (ASP.NET Core MVC)

Karachi, Pakistan / Remote

- Built a simple online bookstore with category, product, and order management modules.
