WISAM AHMED

BACKEND DEVELOPER

📞 03272954532

✉ wisamahmed851@hamil.com

📍 Landhi no#2 khurramabad AR33 Karachi

PROFILE

Backend developer with 6 months of experience in Laravel. Also learning .NET and built a beginner project. Focused on clean code and improving skills.

EXPERIENCE

▪ 2024 – 2025

Backend Developer at Bidec LLC with 6 months of ongoing experience.

Projects

- Movie Ticket Booking Website (Laravel): Developed a full backend system for booking movie tickets, including user authentication, movie listings, show timings, and ticket reservation features.

- E-commerce Website (Laravel): Built an e-commerce website with product listings, shopping cart, user authentication, order placement, and basic admin panel to manage products and orders.

- Shradha Book Store (ASP.NET Core MVC): Created an online bookstore as a beginner project using .NET Core MVC, with features like product management, categories, user login, and a simple order system.

- Inventory Management System (Laravel): Developed a web-based system to manage products, track stock, and handle suppliers. Included user authentication, role-based access, and an admin panel for product and stock management.

- Pob Website (Laravel CMS): Built a Content Management System (CMS) for a trust advertisement website, enabling dynamic management of sections like articles, work showcase, and team info through an easy-to-use dashboard.
