PROFESSIONAL SUMMARY

Backend-focused full-stack developer with 3+ years of experience at Bidec Solutions in Karachi, now working at mid-level. I build production REST APIs, real-time systems (WebSockets, Pusher, FCM), CMS and marketplace platforms with Laravel and NestJS, backed by MySQL and PostgreSQL. My work covers JWT/Sanctum authentication with role-based access control, service/repository architecture, query optimisation and indexing, queues and caching. I also work across the frontend with React and have built mobile-backed products, so I can contribute across the stack while keeping the backend as my core strength.

EXPERIENCE

Bidec Solutions Pvt Ltd, Backend Developer (Mid-Level) March 2023 - Present

Lead Laravel and NestJS backend modules and design and document REST APIs using service/repository architecture. Implement JWT/Sanctum authentication with role-based access control, query tuning and indexing, caching and real-time features, and mentor junior developers and review code. Delivered Ma3rood, Ride n Share, the Bidec Solutions website, Nehlum CMS, and the Advertina Global and GiguPlay platforms.

KEY PROJECTS

Advertina Global - Digital Advertising Booking Platform

NestJS | PostgreSQL | Next.js | TypeScript | JWT & RBAC | Payments | Background Jobs

Digital-advertising booking platform delivered as three web projects: a NestJS and PostgreSQL API (booking, authentication, payments, media, background jobs), a Next.js customer site with a guest booking wizard and advertiser portal, and a Next.js staff panel. JWT, permission and resource-scope guards; connects to GiguPlay as a partner. Live at advertinaglobal.com.

GiguPlay - Multi-Tenant Screen Network Platform

NestJS | TypeORM | PostgreSQL | socket.io | Next.js | Flutter | Multi-Tenant

Multi-tenant platform for running video content on TV-box screens: NestJS, TypeORM and PostgreSQL API with socket.io, Next.js management and client panels, a public marketing site, and an offline-first Flutter player. Screen time-sharing between partners, QR device pairing, two-factor authentication and role-based permissions. Live at giguplay.com.

Ma3rood - E-commerce, Property & Motors Platform

Laravel | React.js | E-commerce | Marketplace Design

Multi-category marketplace (e-commerce, property, motors) built with Laravel and MySQL, with role-based access control, queues and multi-language content.

Ride_n_Share - Real-Time Ride Booking App

Nest.js | React Native | WebSocket | Real-Time Communication | Firebase

Ride-booking app with a NestJS backend. Implemented WebSocket-based live ride requests, driver updates and notifications, with Firebase push notifications.

Nehlum - NestJS CMS

NestJS | PostgreSQL | REST APIs | CMS

NestJS CMS with dynamic page creation, modular architecture, PostgreSQL and REST APIs for frontend integration. Live at nehlum.com.

GetX Services - On-Demand Services App

Flutter | NestJS | Firebase | MySQL | Mobile Development

On-demand home-services marketplace: Flutter app with a NestJS backend, dual user and provider roles, Firebase notifications.

Bidec Solutions - Corporate Website & CMS

Laravel | MySQL | SEO | CMS

SEO-focused corporate CMS built with Laravel and MySQL: clean URLs, metadata, redirects and flexible content modules. Live at bidecsol.com.
